

KERENSKY NOW CONFRONTING MIGHTY TASK

Given Almost Unlimited Powers To Check Disaffection.

VIRTUAL DICTATOR BY DELEGATES' VOTE

Situation In Galicia Serious—Germans Pressing Advantage.

(By Morning Bulletin Leased Wire)
LONDON, July 23.—Alexander F. Kerensky, the man of the hour in Russia—the man who early in July started the brilliant offensive against the Germans and Austro-Hungarians in Galicia which gave them notable gains, has been made virtual dictator in Russia and given the tremendous task of putting down the disaffection of the troops which has resulted in a retreat along the front in Galicia, and otherwise to end the anomalous situation that prevails in Russia. By an almost unanimous vote the council of Workmen's and Soldiers' delegates and the Peasants' Congress realizing that a man of ability of the highest order was required at the present juncture to strengthen the morale of the Russian troops, have given "unlimited powers" to M. Kerensky and his government and M. Kerensky already is on his way to Galicia, where he soon may be expected to use all the force at his command against the disaffected troops and against giving them face to face with the Germans.

Worrying Situation.
The situation in east Galicia and to the north of the Pripiet marshes for the moment is proving disconcerting to the Russian government. Added to the struggle it is having with the deserters in Galicia, who are still falling back nearly everywhere, comes the news that lack of stability among the men fighting against the Germans in the region of Smorgon and Krevo, southeast of Vilna, is giving the Russian government and military command great cause for worry.

In a fierce attack between Smorgon and Krevo the Russians drove a wedge into the German line to a depth of two miles at various places, and took more than a thousand prisoners. The Petrograd war office, however, announces, however, that the lack of morale of certain detachments of the Russian army is placing the success of the campaign in jeopardy.

Near Corbion, a hub of the official communication which admits that gains were made, asserts already that most of the captured positions have been regained.

Taking advantage of the chaos that reigns, the Germans and Austrians are keeping up their intensive rush against the Russians all along the front in Galicia. The German advance is being checked, but they have not yet captured this important point east of Lemberg, which the Russians held since the beginning of the war, and also are advancing on both sides of the Dniester river, and between the Stripa and Zolota Lipa, where they have occupied a number of villages.

Pause After Heavy Losses.
The Germans apparently have ceased for the time being at least their fierce infantry onslaught against the French along the Chemin des Dames in France, which have cost them dearly in men killed, wounded or taken prisoner, when compared with the extremely small amount of ground they gained. The latest French official communication announces that Monday saw no infantry action in this region, although a number of attacks and counterattacks were made.

Canadians Back at Line.
The Canadians have taken another back at the German line protecting the coast field of operations. Fighting took place along the coast line of the German line. The British communication gives the extent of the success as a penetration of 300 yards on a front of 600 yards, and announces that the troops reached their objective with slight losses. Correspondents with the forces say the Canadians forced their way to the second line of German defenses along a front of 700 yards, bombed and destroyed positions and took prisoners.

On the other front there has been little notable activity, although further successes have been gained by the British against the Germans in East Africa and the Turks in Palestine.

Heavy Losses of Enemy.
LONDON, July 23.—The official report from British headquarters in France issued tonight reads: "Information concerning the raid by our troops south of Avion shows that the enemy's positions were penetrated on a front of six hundred yards to a depth of 300 yards. In addition to over fifty prisoners captured, heavy casualties were inflicted on the enemy and much damage was done to his defenses. We also carried out a successful raid this morning against a position strongly held by the enemy east of Oosteloveren and secured prisoners. An attack by the enemy early this morning on one of our posts northwest of Cherisy was repulsed."

14 Planes Brought Down.
Yesterday there was great aerial activity on both sides. Fighting took place continuously from dawn to dark. The visibility was excellent and much successful work was accomplished by our airplanes. Over three tons of bombs were dropped on the enemy's air dromes, ammunition dumps and rail-

ENGINE RUNS AMOK IN YARDS AT WINNIPEG

Canadian Pacific Locomotive Dashes Into Caboose.

THREE MEN KILLED; FOURTH BADLY HURT

Engineer And His Fireman Jump To Safety.

(By Morning Bulletin Leased Wire)
WINNIPEG, July 23.—Shortly after noon today an engine got out of control on the Canadian Pacific yards here and dashed into a caboose near the roundhouse, killing three men outright and injuring one very seriously. The victims were:
B. V. Rowder, aged 37, yard foreman.
Oscar A. L. Penser, aged 41, switchman.
H. J. Nelson, yard foreman.
James Tait, aged 52, yard foreman.
All of the men lived in Winnipeg. A statement issued by the C. P. R. was to the effect that Engine Number 6833 got beyond control of the engineer.
The caboose in which the victims of the accident were sitting was attached to a train of cars just transferred to the Winnipeg yards from Transcona. Engine 6833 was some fifty or sixty yards away when the engine started the locomotive back towards the roundhouse. It was then that something had gone wrong with the throttle and that it was impossible to stop. Realizing that a collision was inevitable, the engineer and his fireman jumped and escaped without injury. The engine attained considerable speed and crashed into the caboose with great force, going almost through it and killing the three men instantaneously.
Tait, when taken from the wreckage, had his right thigh badly cut and various bruises about the body. The police authorities and Coroner B. J. McConnell have undertaken an investigation, in addition to progress by officials of the railway company.

AGREEMENT ON RADICAL CUT OCEAN RATES

By Shipping Commissioners Representing United States And Great Britain.

WASHINGTON, July 23.—Radical rates have been agreed upon in principle by shipping commissioners designated by President Wilson and the British government to represent the governments of the United States and Great Britain.

Copies of a proposed agreement under which the two governments not only would make sweeping reductions in present prohibitive rates but virtually would take over the operation of all allied merchantmen in the Atlantic have been placed before the state department and the British foreign office for approval.

With the program in effect the United States and Great Britain virtually would control the entire world's shipping, prescribing reasonable rates, far lower than those on some commodities now in effect and designating sailing and voyage.

CLIFFORD SIFTON WANTS A UNION WAR GOVERNMENT

Says That Is The Only Way To Grapple With The Situation.

OTTAWA, July 23.—Sir Clifford Sifton has addressed an open letter to Senator Bosworth, Liberal leader in the senate, in which he expresses disapproval of the attitude of Sir Wilfrid Laurier in regard to the Military Service Bill and a election. He says the only way in which we can grapple with the situation is by the formation of a union war government, administered on non-partisan lines, which will straightway appeal for a mandate to the people of Canada and can consistently be supported by every element in the population that is loyal to the cause.

TO REGINA CITY COUNCIL.
SASKATOON, Sask., July 23.—H. L. Martin was elected to the city council to represent the seat in Ward Five made vacant by the resignation of G. W. A. Potter. The vote stood: H. L. Martin, 139; J. D. Wallace, 145.

RAIN THE ARBITER

CALGARY, Alta., July 23.—C. Rice-Jones, president and general manager of the Alberta Elevator company, stated tonight after a trip through the country, that with rain coming very shortly, he estimated the wheat yield would average 14 bushels to the acre. Without rain, it would be much less and Canada might find herself unable to export any wheat.

way sidings, and good results were observed. Nine German machines were brought down in combat, including one brought down in the sea, when endeavoring to return to England. Four other enemy airplanes were brought down out of control. In addition, one enemy machine was shot down out of control by our anti-aircraft guns. One observation balloon was brought down in flames. Nine of our airplanes are missing.

RUSSIAN COUNCILS' ISSUE CALL TO ARMS TO MEN AT FRONT

"Whoever Disobeys Commands Of Govt. In Battle Will Be Branded Traitors."

Statement By Sir George Foster In The House.

Discussion On The Powers Of The Grain Supervisors.

(By Morning Bulletin Leased Wire)
PETROGRAD, July 23.—The Board of (British) Admiralty per Wireless Press)—The executive council of the All-Russian Workmen's and Soldiers' and Peasants' organizations have issued the following proclamation:
"Fellow soldiers! One of our armies has wavered; its regiments have fled before the enemy. Part of our front has been broken.
"Emperor William's hordes, which have moved forward, are bringing with them death and destruction.
"Enough of words! The time has come to act without hesitation. We have acknowledged the provisional government. With the government lies the salvation of the revolution. We have acknowledged its unlimited authority and power. Its commands must be law. All those who disobey the commands of the provisional government in battle will be regarded as traitors. Towards traitors and cowards no mercy will be shown.
"Fellow soldiers! You are being watched by those who work for Russia and by the whole world. The pain of the revolution, the ruin for all. Summon up all your manhood, your perseverance, your sense of discipline and save the fatherland."

TOO MUCH LIGHT FOR DAYLIGHT SAVING BILL

So Much Opposition Developed In Committee That It Has Been Dropped.

(By Morning Bulletin Leased Wire)
OTTAWA, July 23.—Government bills and supply again occupied the attention of parliament today. The bill for the daylight saving act, after receiving second reading, met with almost unanimous opposition from the members of the house present. Members on both sides of the house vigorously opposed the proposal to advance the clock one hour during the summer months. The representatives of rural constituencies, including a number of western members, appeared to be all against the bill. It was decided to drop the bill.

Sir George Foster, in moving the second reading of the bill, explained the history of daylight saving measures in Great Britain, the United States, Australia and the United States. He quoted from a report made by a parliamentary committee in Great Britain in 1916, in which it was stated that during the summer of 1916, the report was favorable to the scheme. Sir George stated, however, that he was not committed to the bill and that the house would have to decide its fate.

When the Opposition in committee made it apparent that the bill had few friends, Sir George had progress re-evaluated, and it is not to be brought up again.

FOOD SAVING IS VITAL TOWARDS WINNING WAR

Food Controller Says Deficiency In America Is Making Situation More Acute.

TORONTO, July 23.—Hon. W. J. Hanna, the Dominion Food Controller, who this evening addressed the first meeting at Copps' Hall of the best provincial-wide convention of women, called by them to insist on aiding with the war, read a message from Baron Rhonda, the British food controller in which he said:
"We look to the resources of Canada and the indomitable energy of Canadians for an answer that will shatter Germany's threat of starvation."
Mr. Hanna stated unequivocally that with a deficiency on this continent of 160,000,000 bushels to supply the needs of the allies, the situation was more acute, and that food conservation was vital towards winning the war.

Premier Sir William Hearst pointed out that however hopefully they might look forward to a plentiful crop, the best saving could only be done with what was actually in hand.

FAMILY FISHING PAYING BUSINESS NOW AT ST. JOHN'S

Home Fisheries An Important Part In Life Of Newfoundland.

ST. JOHN'S, Nfld., July 23.—Home fisheries are playing an important part in the commercial life of Newfoundland. This year the catch of the best of their income by putting in an hour or two of fishing every day. It is no unusual sight to observe whole families going out in rowboats in the evening and returning with a good load of codfish caught within a mile or less of their homes.

CHURCHILL OPPOSED

LONDON, July 24.—While the Unionists have decided not to oppose Winston Spencer Churchill in the election for the Dundee seat, made necessary by his appointment to a cabinet position, his re-election will be contested by Edwin Scrymgeour, prohibitionist and Laborite. In the last election Scrymgeour was a candidate, polling 1,325 votes to Mr. Churchill's 2,240.

PACKING PLANT PROBE BOARD APPOINTED

Will Also Investigate Dealings Of Large Storage Companies.

(By Morning Bulletin Leased Wire)
OTTAWA, July 23.—An order-in-council was passed by the cabinet today appointing the examining board of three to investigate the operations and dealings of the large packing and cold storage companies. The acting commissioner, W. F. O'Connor, K.C., expressed in his report the opinion that such further investigation and examination should be held with him. C. F. Henderson, K.C., of Ottawa, the chairman of the new board has had considerable judicial experience as a drainage referee in the province of Ontario. Associated with him are A. B. Brodie, a leading member of the firm of Price, Waterhouse and company, Montreal, chartered accountants, and Geoffrey Clarkson, of the firm of Clarkson, Gordon and Dilworth, Toronto, chartered accountants. Both these gentlemen are expert accountants of great ability.

All three members of the board have offered to serve without compensation, regarding the task which they have undertaken as a patriotic duty to the state under present conditions. Mr. Hoover, the food controller of the United States has offered to place at the disposal of the board in an advisory capacity the services of a committee of men who are connected with the staff of the food controller of the United States.

NO DEFINITE PRICE FIXED ON WHEAT YET

Statement By Sir George Foster In The House.

MUST AWAIT ACTION BY U.S. BOARD

Discussion On The Powers Of The Grain Supervisors.

(By Morning Bulletin Leased Wire)
OTTAWA, July 24.—During consideration of supply of the department of trade and commerce in the house today, there was a long discussion on the question of the regulation of the price of wheat and flour. Incidentally Sir George Foster stated that there was no official confirmation of the report that the board of grain supervisors had definitely fixed the price of this year's wheat crop at \$2.40 per bushel. He pointed out that a price could not be fixed until the United States congress passed co-operative legislation. He expected that this would be done within a fortnight.

REFUSES PLEA OF EX-EMPEROR FOR INTERVIEW

Nicholas And Family And Former Ministers Have Trying Time During Revolt.

(By Morning Bulletin Leased Wire)
PETROGRAD, July 22.—Ministers in office before the revolution who are now imprisoned in the fortress of St. Peter and St. Paul had a trying experience last week at the time of the occupation of the fortress by Radical Bolsheviks and Kronstadt sailors, an element of whom insisted on immediate removal of the prisoners to Kronstadt. When the fortress was surrendered, the former Premier Sturmer had succumbed to the strain and was unconscious. The Bourgeoisie Gazette reports, M. Soukhomlinov, wife of the former minister of war, is said to have pleaded with her guards to furnish her some means of committing suicide, fearing she would be lynched. Efforts to remove the prisoners to Kronstadt were resisted by the guards. The early surrender of the fortress doubtless prevented fulfillment of the design.

The former Imperial family also was greatly alarmed by fragmentary reports which reached it in the Alexander Palace at Tsarkoye-Selo, fearing the fate of the former emperor for a conference with the Tsarkoye-Selo representative of the council of workmen's and soldiers' delegates was placed, as was his plea that the family be transferred to some other place. Assurances were given Nicholas, however, that he would be protected by the garrison.

CANADIANS BRING BACK 60 PRISONERS

Further Details Of The Successful Little Enterprise Near Lens.

LONDON, July 23. (Via Reuters' Ottawa Agency).—Reuters' correspondent at headquarters in France telegraphed this afternoon as follows:
"In the small hours of this morning Canadian troops carried out a very successful little enterprise near Lens. Following a very heavy bombardment strong raiding parties went across on a front of 700 yards. They carried their first point without much opposition, but when they went forward again across the rubble and scattered brick fields they encountered considerable resistance. They succeeded in reaching the high embankment of the Avion-Mercurat railway and proceeded to attack the dugouts with which it was found to be honeycombed. The enemy refused to surrender at first, and the Canadians bombed them heavily, doubtless inflicting heavy losses."
"Having penetrated to a depth of about 500 yards, the attackers came back, bringing forty wounded prisoners. From the front trench, which was taken, their division only arrived from the Russian front a day or two before. They had not been in their new position many hours before they were driven to cover by the drum fire of our batteries."

"As the Germans had been employing gas shells during the afternoon, the Canadians went over in the gas masks. They established a few posts but the little garrisons of these had orders to fall back if heavy counter attacks developed."
"About 4:30 o'clock this morning the enemy put down a heavy barrage, so the Canadians retired upon their front trenches, having carried out a raid which must have cost the Huns some hundreds of men at a price in casualties less than the number of prisoners taken."

SLIPS IN; DROWNS

LETHBRIDGE, Alta., July 23.—Wm. McGowan, a miner was drowned in the river here Saturday night. He was walking along the river edge and slipped in drowning before help came.

VICTIM OF TABER

LETHBRIDGE, Alta., July 23.—William Brown, a plasterer, was drowned in the river at Taber, Sunday afternoon, while bathing. His body was recovered. A brother lives in Calgary.

NAMED IN DISPATCHES

LONDON, July 23. (C.A.P.).—The Gazette supplement tonight gives the following Canadians as mentioned in dispatches: Major C. B. Lindsay, Captain H. Lyle and Captain J. Rose, all of the Infantry, and Major K. B. Marshall, General List.

ADVANCE 1c LAKE AND RAIL RATES GRANTED BY BOARD

Increases In Both Through And Local Grain Rates To This Place.

TORY ENDORSES SIR WILFRID

COMPTON, Que., July 23.—A large anti-conscription gathering was held here today, when 2,000 persons attended from this place and surrounding villages. A. B. Hunt, ex-M.P. for Compton County, declared himself absolutely opposed to conscription and announced that he had decided to run again for Compton County at the approaching elections. F. H. Hebert, a prominent Conservative of Sherbrooke, endorsed Sir Wilfrid Laurier's stand on conscription.

FOREST FIRES HAVE GOT OUT OF CONTROL

With Vegetation So Dry They Are Spreading Rapidly.

IN TRAIL DISTRICT FLAMES JUMP RIVER

Great Conflagration In Washington Travelling Towards B.C.

(By Morning Bulletin Leased Wire)
NELSON, B.C., July 23.—With much of the vegetation in the woods as dry as tinder, forest fires spread at an alarming rate on Sunday and Saturday. In two cases, on Spruce Creek and in the Trail district, men fighting the fire were caught in light corners and had narrow escapes from perishing in the flames. In the Trail district, the fire, which jumped the Columbia river out of control, menaced the city of Trail, setting some houses ablaze, ran at the rate of two miles an hour. Winds all through the district fanned the flames and vitiated every fire is reported tonight to have got out of hand. Only rain can stop them. There has been none since June 24.

Checked By Fire.
Doukhobors, who were employed as fire fighters in the Trail district, were surrounded by fire and had difficulty in getting out. They would desert to the town if they were caught in such a predicament and had to wait until night before they could make their way back to safety. So rapidly was the Spruce Creek fire spread that the crew had to give up any hope of preventing the outbreak from spreading up the mountains and was compelled to direct its own whole efforts to keeping the flames from creeping downward toward the Kootenay river. Great volumes of smoke appeared in the sky like clouds tinted by the red flame below.

A great fire is raging in the state of Washington. Fought by 200 men it was out of hand Sunday and travelling toward Pasco, B.C., near the international boundary.

Trail was reported today to be safe, the blaze having been driven back, but it is still raging around the city, according to word from the Trail district, but gradually spreading away from it.

The fire on the Duncan river in the Langley district, has got out of control and is eating into a big stand of cedar. Fires in the Arrow Lakes district, which last week were reported under control, are out of hand also and spreading in the vicinity of Arrow Park, East Arm and Whatchan Lake.

Another Blaze.
Fruitvale, on the Great Northern railway south of Nelson, is the scene of another blaze. It broke out Sunday evening and men were sent from Salmon last night to fight it. Four fires were put out by a party of men from the Arrow Lakes district, which arrived on Sunday. The fires had started along the track.

Another new fire in at Evans Creek, near Shocan city, in timber owned by Q. S. Deschamps. Several hundred men are fighting fires in the district as a whole.

Fears For Corbin.
FERNIE, B.C., July 23.—The bush fire situation locally tonight is unchanged, but grave misgivings are prevalent as to the fate of the town of Corbin, situated on the eastern tip of British Columbia railway forty miles southeast, as the last communication from there was that the fire which has been burning since Friday night being fanned by a high wind today, was seriously threatening the town and an appeal for immediate aid was received. An advice reached here late this afternoon and a party was dispatched with specific instructions to immediately communicate the exact condition but so far no word has been received. Another party left yesterday taking cross country trails and should have reached Corbin this afternoon but no report has been received from that source either.

FIRE CHIEFS MEET FOR CONVENTION

From East And West Gathering At Cities At Head Of Lakes.

PORT ARTHUR, Ont., July 23.—Fire chiefs from all over Canada are holding a four day convention at the head of the lakes, commencing tomorrow morning. About 100 arrived with their wives today from the east and many more are expected from the west tonight and tomorrow. Today they toured the twin cities in automobiles. Tomorrow morning they will be officially welcomed by Mayors Cowan and Murphy. In the afternoon there will be a business session, and in the evening a memorial service in memory of three fire chiefs who died during the past year.

AGREE TO REPORT BILL

WASHINGTON, July 23.—Senate leaders decided today not to hold up war tax legislation longer on account of the uncertain prospect over liquor legislation in the food bill. The finance committee voted to report the war tax bill as previously approved, and to ask that debate on it begin Wednesday.

K. C. CHAPLAIN DEAD

BOSTON, Mass., July 23.—Rev. Garrett J. Barry, pastor of St. Phillip's church and a former national and state chaplain of the Knights of Columbus, died at a hospital here today after an operation. He was 57 years old.

SANK SUBMARINE

PARIS, July 23.—An American steamship recently sank a large German submarine, according to a dispatch to the Temps from Havre. While on a voyage from the United States the steamer was attacked by a submarine and, while assumed a perpendicular position and disappeared beneath the water.

TEN CENTS FARE NOW "TWEEN TWIN CITIES"

Owing To Increasing Deficit Rates Increased From Port To Port.

FORT WILLIAM, July 23.—Wednesday, for the first time in history of the two cities, five cents will not carry a passenger from Port William to Port Arthur or vice versa. Owing to the deficit piling up on the street railway application was made to the Ontario Railway and Municipal board for permission to charge double fares, which was granted and comes into effect July 26.

GOVERNMENT SUSTAINED BY VOTE OF 3 TO 1

General Election Averted In United Kingdom By Division.

STRONG OPPOSITION TO CORN MEASURE

Fixes Price Of Grain; Wages Of Farm Labor.

(By Morning Bulletin Leased Wire)
LONDON, July 23.—A threatened general election was again averted when the house of commons tonight by a 3 to 1 vote defeated the Warde amendment to the Corn Production bill, which the ministers had announced their intention to treat as a vote of confidence.

This was a most critical amendment to the bill, and the government victory is regarded as insuring the safe passage of the measure, despite the fact it is heartily disliked by a large section of parliamentarians and public.

The strong sentiment against having a general election during the war, however, predominated over the opposition to the bill and shows that the government is in a strong hand when it decided to treat the vote as one of confidence.

Today's debate gave evidence of unabated dislike to the measure. Walter Runciman and others strongly denounced the twenty-five shillings minimum wage as miserably inadequate. Mr. Runciman reminded the house that soldiers now getting three good meals daily, would not be satisfied on returning to the scanty, almost meaningless fare, procurable on such a wage. They would desert to the towns and leave the farmers in the lurch. This was a great danger to agriculture.

The government's position, as explained by Sir Frederick Smith, the attorney general, was that the government was being punished for fixing a minimum wage which would prevent farm laborers from being exploited and that there was nothing in the bill to prevent the wage boards from giving a higher wage where it was justified.

A number of the members, while maintaining their opposition to the bill, announced that they would support the government in the event of a general election. James Henry Thomas, assistant general secretary of the amalgamated society of laborers servants, in behalf of the Laborers said that labor had not any idea of wrecking the government, the only intention being by the amendment to improve the conditions of the poor.

WILL OPPOSE GOVT. AGAINST CONSCRIPTION

Such An Administration Would Show Canadians Were War Weary, Says Globe.

TORONTO, July 24.—In a strong editorial on "Canada and the War," the Globe, (Liberal) this morning says:
"The formation of a government opposed to conscription would be a proof that the majority of Canadians were war-weary, and would be so interpreted in every country in the world. Germany included. It would be a signal to every man who has hitherto dodged his duty to continue in the path of 'safety first.' It would bring down on Canada the responsibility of every nation fighting for the great cause. It would tarnish or efface the glorious chapters written with her bravest blood."

"These are considerations which should weigh upon the mind and conscience of every voter and of every candidate. For itself the Globe will oppose the election of any man who does not uphold the principle of compulsory military service and who would vote in parliament for the creation of anti-conscriptionist ministry."

LEAVE PROHIBITED MEN FIT TO SERVE

Under Present Conditions It Is Impossible Says Sir Geo. Perley.

TORONTO, July 23.—Sir Edward Kenny, minister of militia, replying to an enquiry from the secretary of the Great War Veterans' association here as to the possibility of bringing back soldiers on furlough who have been on active service since the beginning of the war, writes:
"The question of giving three months' furlough has received serious consideration both here and overseas, but Sir George Perley, minister of militia overseas, while expressing very sympathy for these men and their relatives, states that under the present conditions it is impossible to give leave to Canada to any men who fit for service in the field."

TEN CENTS FARE NOW "TWEEN TWIN CITIES"

Owing To Increasing Deficit Rates Increased From Port To Port.

FORT WILLIAM, July 23.—Wednesday, for the first time in history of the two cities, five cents will not carry a passenger from Port William to Port Arthur or vice versa. Owing to the deficit piling up on the street railway application was made to the Ontario Railway and Municipal board for permission to charge double fares, which was granted and comes into effect July 26.

**LENDHAM McMEANS
TO BE MADE SENATOR**

Montreal, July 23.—The Gazette's Ottawa correspondent says:

"Lendram McMeans, K.C., of Winnipeg, who will be selected to fill the one remaining vacancy in the Manitoba representation in the senate, has arrived in Ottawa. Mr. McMeans is a prominent barrister of Winnipeg. He was formerly member for South Winnipeg in the Manitoba legislature. Mr. McMeans has the Manitoba representation in the Eight Battalion, and has himself raised a battalion for overseas service."

Gunner W. A. French, Ireland.
Gunner J. P. Whalen, Montreal.

Personal.

Dr. J. S. Miller, who returned from Calgary Thursday, again proceeded to the southern city Saturday night. He expects to be absent till the end of the week.

Mr. D. B. Mulligan, superintendent of O. T. P. hotels, and who has been making a business tour through the north, returned to Winnipeg this morning.

Dr. Grimshaw and Mrs. Grimshaw, of Peace River, came to the city Sunday night and are registered at the Macdonald.

E. Michener, M. P. P., of Rad Deer, is registered at the Macdonald.

Miss Eva L. Hill, of Ingersoll, Ontario, is visiting with her sister, Mrs. W. W. Jackson, 1211 Broadway.

F. E. Trautman, press representative of the C.P.R., Winnipeg, is spending a day in Edmonton en route from the coast to Regina to attend the fair there. Mr. Trautman has been visiting in the Crow's Nest and Kootenay. He reports that the fruit district here is suffering as the result of recent hot winds.

many men in the destroyed dugouts, but relatively few could have escaped in the short time between the sounding of the alarm on bells kept at their entrances and their destruction.

The enemy casualties must be up in the hundreds while our own were little more than the number of prisoners taken.

[illegible]

Mr. and Mrs. Bloomfield and children were visiting Mrs. Symes during the week.

Hon. D. L. and Mrs. Scott with Mrs. Brown and baby have arrived at their cottage. Mr. Crawford Turnbull and Miss Helen Turnbull are their guests.

Mrs. Heath are with them. Mr. is at the front with his battalion.

Mr. Bob Allcox was on a visit.

Mr. and Mrs. Finlayson.

Mrs. C. Finlay and family.

Muskoka tent for a few weeks.

NEWSPAPERMEN FROM STATES VISIT CITY

Representatives Of National Editorial Association Surprised At Prosperity Of Alberta.

A party of newspapermen, with their wives, representing the National Editorial Association of the United States, spent a few hours in the city last night on their way to Winnipeg. They arrived on the C. N. R. from Vancouver and left at 10.30 for Saskatoon, where they will spend part of today. The party consisted of H. C. Hotelling, of the Minneapolis, Minn., Enterprise, president of the National Editorial Association; Mrs. Hotelling and daughter; Col. E. J. Rountree, of the Georgetown, Texas, Commercial and Mrs. Rountree, and W. Wilkie, of Gray Eagle, Minn., president of the Northern Minnesota Editorial Association, with Mrs. Wilkie and son, Roger.

It was originally intended that a party of about three hundred members of the association should have taken this trip through the Canadian West, but the entry of the United States into the war made it impossible to arrange for transportation facilities over the American roads. These officials, however, determined to make the trip largely to make their apologies to the different boards of trade throughout the west where extreme preparations had been made to receive them, and to make the promise that at the earliest possible date the intended trip will be taken.

A representative delegation of the Edmonton board of trade, consisting of J. E. Brown, president; Jas. Ramsey, T. M. Turnbull, Jas. Armstrong, A. W. Challand and M. J. Hutchinson, and Hyatt Cox, the American consul, met the visitors and took them for a two-hour drive around the city. They expressed themselves as being greatly pleased with the appearance, prosperity and stability which the city presented and were surprised that a country which had contributed so largely in men and means to the war in Alberta has gone about in such an obviously prosperous condition.

CROPS GOOD, LABOR SCARCE IN DISTRICT

Board Of Trade Official Back After Week-End Motor Tour.

Secretary F. T. Fisher, of the Edmonton Board of Trade, and W. F. Stevens, Live Stock Commissioner for the Province, spent the week-end in a motor tour among the farming communities north-west of the city, the object being to investigate crop and stock conditions.

The places visited include Morinville, Riviere Qui Barre, Independence, Belvedere, Rich Valley, Lac la Poudre and other districts.

Crops generally good. As for the crops, Secretary Fisher says that they were found to be uniformly good, and particularly at Morinville and Riviere Qui Barre splendid. In some places the straw being cut could be called a real failure, although in some places the effect of continued dry weather was not noticed.

With regard to stock, it was evident that, considering the nature of the country which includes a great deal of bush, that there was not so much stock being kept as should be. The farmers recognized it, and expressed their determination to take advantage of the provincial legislation to increase their cattle.

In some districts, Belvedere for instance, the dairy industry is being successfully organized to the advantage of the stock-keepers. A shortage of labor was complained of and it was feared that the effect of this would increase. Some of the farmers wanted to make hay but could get no assistance. What has happened in these districts in particular is that the bachelor farmer has just shut down his place and enlisted, and also many of the married men followed suit.

Mr. Fisher says that it came as complete surprise to them both that they could travel all over the district in an automobile. Not only on the main routes but also on the side trails the roads were excellent.

NEWSPAPER MEN COMING

A party of five members of the National Editorial Association of the United States, who are making a tour of Canada, will arrive in the city by the C. N. R. on Monday night en route to Winnipeg. It is likely they will stay for a day in the city.

CHINAMEN IN CONVENTION IN EDMONTON

Visitors From Calgary And Other Points Here For Gathering.

The third anniversary of the organization of the Chinese National League of Edmonton was held at their office, Rice Street, on Sunday. The proceedings opened at 2.30 o'clock and about two hundred members were present. The following delegates attended from different parts of the province: F. T. Chong, Calgary; W. W. Yeaton, Hardisty; W. Y. Ho, Lethbridge; D. Fong, Stettin; L. Long, Lacombe. Telegrams and letters were received from the principal cities of Canada and the Western States, all congratulating the league on its work.

Speeches were delivered by various members of the League explaining its objects and reviewing the year's work. The constitution of the league was enumerated as follows:

1. To maintain the unity of Chinese politics.
2. To expand local self government.
3. To secure the assimilation of the race.
4. To adopt the best policy of socialism.
5. To maintain national peace.

The president, having dealt with these objects gave a summary of the year's work. He then called on W. W. Yeaton, Hardisty, who addressed the meeting at some length. It was pointed out that in the three years of the existence of the Chinese National League, China has had no less than three distinct changes of government, first from monarchy to republic, then from republic to monarchy, and now back again to republic.

At 3.30 tea was served. Resuming after tea F. T. Chong, Calgary, who represents the Chinese Y. M. C. A., addressed the assembly in English and Chinese, and the banquet explained the work of the branch and urging on the meeting the necessity of establishing a branch in Edmonton.

Banquet in Evening. In the evening the banquet commenced. It was a most successful and enjoyable function and afterwards the assembly adjourned to the lecture room where speeches were resumed and continued till an advanced hour in the night.

Most of the speeches were delivered in Chinese. W. W. Yeaton, Hardisty, addressed the assembly in English and Chinese. W. W. Ho, Lethbridge, returned thanks on behalf of the visitors for the honor done them by inviting them to be present at the function.

Among the guests present were Mr. and Mrs. M. C. Wright, Dr. and Mrs. Darling, Mr. and Mrs. A. M. Johnston, Mr. and Mrs. John Carmack, Mr. and Mrs. P. W. Robertson and Mr. Douglas, Gordon E. Winkler, James M. Armstrong, and others.

ASKS DAMAGES FROM RAILWAY

Frank A. McLeod Claims Crops Lost by Drainage From A. & G. W. Land

In the supreme court, before Mr. Justice Simons, Frank A. McLeod is suing the A. & G. W. Railway Company for \$1,000 damages. The plaintiff claims that the railway company built a ditch to drain their right of way and as a result the water was run onto his quarter section, in consequence of which he lost his crops for the years 1914, 1915 and 1916.

The case is proceeding. G. B. Henwood is appearing for the plaintiff and N. D. McLean for the defendant.

To Keep The Face Fresh, Clear, Youthful

More important than the cosmetic care of the complexion, is its physical care. To keep the face clear, fresh, youthful, there's nothing better than ordinary mercurized wax. It absorbs the excess of sebum, keeps the skin particles, cosmetics simply add unwholesomeness to the complexion. That's the difference. By all means, acquire the mercurized wax habit. It's so easy to get a ounce of the wax at the drugist's, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off so gradually no one suspects you're using anything. When in a week or two the alluring, youthful, rosie-like under skin is fully in view—well, you won't want, or need a make-up after that. It must be apparent that this process means complete removal of all cutaneous blemishes, like freckles, pimples, blotches and black heads.

For a wrinkled, loose or saggy skin, a face bath made by dissolving an ounce of powdered salicylic in a half pint witch hazel, supersedes massage cream and everything else for results. Its action is instantaneous, and perfectly harmless. It improves facial contour wonderfully.

SONG OF BINDERS WILL BE HEARD IN TWO WEEKS SAYS REPORT OF CORRESPONDENTS

Throughout Whole Territory Crop Conditions General Satisfactory—Some Districts Want More Rain—Hail Damage Is Recorded At A Few Points—Hay Cutting Has Begun—Average Yield Will Be Light.

Binders will begin in two weeks to cut the harvest of 1917 according to the crop reports received from the local district correspondents of the Bulletin. Sunny Alberta is true to name this year though in some localities the correspondents report a desire for a little more rain. But throughout the whole territory crop conditions are generally satisfactory, and several reports tell of rapid progress, with a few early sown fields of early sown grain showing signs of approaching maturity.

Haymaking has begun, but in quite a few districts the hay crop will be light. Slight damage by hail is reported from a very small fraction of the whole district. The following crop reports are from the Bulletin's own correspondents as received by mail:

Wheat and Barley Headed
At Fort Assiniboine, N.W. of the city on the Athabasca river, and vicinity all crops are looking fine. Wheat and barley are headed out. Oats, thirty to thirty-six inches high. Potato crop very promising. Hay crop somewhat short. There has been in excess of sunshine, but with some timely rains and cooler weather there should be the heaviest crop ever harvested here.

At High Prairie crops of all kinds are making very rapid progress and are not suffering from lack of rain, though after the intense heat of the past week a shower would be welcome. Visitors and others who have travelled recently report crops farther advanced here than in most other parts of the province.

At Bonnyville, to the north west of the city, harvest will commence in a couple of weeks in the settlement. Barley is ripening very fast, and it looks like a heavy crop.

At Sangudo, to the west of the city, crops are looking fine. Some wheat and barley are beginning to head and oats are coming along fine. Previous to this year, it is said that hail did not injure crops in this locality, but some farmers report damage this year. One farmer said he has raised seven crops here and this is the first hail he has known. It was rather better here and cattle are sleek. There will be a number of fine Alberta beavers ready for market this fall at Sangudo. The weather is ideal for the growing grain, which has begun to wave and it looks as though the crop will be ahead of last year. The potato crop is first class.

At Gainsford, to the north west of the city, hay is in full swing. There is about an average crop this year. Grain, potatoes and garden crops are doing very well and look fine.

At Woodhead, to the south west of the city, the crops are looking good, but the farmers are all anxious for rain.

At Excelsior, to the north of the city, the earliest sown wheat is 51 inches tall.

At Elmdale, to the N.E. of the city, crops are looking fine. The few rains have greatly changed crop conditions. Hay is expected to be a better crop than last year.

At Myrtle Creek, to the N.E. of the city, great damage has been done to the crops by prolonged drought. All grain with few exceptions, is heading out short. Up to this time potatoes have done fairly well but some fields are already wilting. Since March the precipitation has been far below the normal.

At New Norway, to the S.E. of the city, crop prospects are very good. Grain is mostly all headed out and doing fine. This district had a good rain on July 15th, which helped things a lot. Gardens generally look good. Weather is very warm but the crops could do with a good rain. Haymaking will commence soon.

At Innisfree, to the east of the city, rain is badly needed. This district has had no general rain all spring, nothing but local showers. Wheat is heading, but will not be all out in head for some time. Oats and barley doing fairly well considering the dry weather. The potato crop good.

At North Bank the crops are looking fairly well, but backward; rain is needed badly on account of the in-

SOUTH SIDERS IN CASUALTY LISTS

Pte. R. Wicks Reported Killed And Pte. J. R. Trupp Wounded.

The names of two South Side men appear in the casualty list this morning. Pte. R. Wicks as having been killed in action and Pte. J. R. Trupp as having been wounded. The Alberta casualties reported are as follows:

Killed in Action.
Pte. H. Wicks, Strathcona.
Seriously Ill.
Pte. F. J. Jenkins, Lacombe.
Wounded.
Pte. J. R. Trupp, 5958 79th avenue, Edmonton.
Act. Sergt. C. L. Diefenbacher, Stettin.
Sergt. J. M. Wheatley, Calgary.
Pte. A. Dewar, Maycof.
Pte. C. Fentre, Bowden.
Pte. C. E. Anson, Calgary.
Corp. E. Christian, Lethbridge.
Pte. H. Thompson, Galt.
Pte. F. Hood, Calgary.
Pte. T. Hudson, Calgary.
Pte. J. H. Bradford, Bassano.

EDMONTON MAN DELEGATE TO GO TO RUSSIA

Proprietor of Petrograd Hotel One of Three From Canada West

T. A. Fuyarchuk, proprietor of the Petrograd Hotel, Edmonton, is one of a delegation of three Russians appointed to proceed to Europe from Canada to lay before the Allies and particularly the Provisional Russian Government their views on the situation as it affects their native country.

They are altogether opposed to separate peace or to peace without annexation. They strongly advocate the restoration to Russia of Eastern Galicia and Bukovina.

Fifteen hundred dollars has been collected in Edmonton and through the province to defray the expenses of the delegation.

The other two delegates are Rev. A. Philippowsky, Winnipeg, and Y. I. Hladky, Winnipeg. The movement has been organized by Bishop Alexander head of the Russian Orthodox Church in Canada.

There are also twelve delegates proceeding from the States with the same object. They expect to leave some time next month.

NO ORDERS YET TO REPORT HOME FOR WAR SERVICE

Rumors That Edmonton Residents Were Drafted Apparently Untrue

Reports have been current in the city for the past few days that American citizens visiting here had received notification that they have been called on the first U.S. draft for service at the front. The report had particular reference to a number of American citizens who are on the Panjane circuit, and were at the local theatre.

According to Manager Calvert there is no truth in the story. Several of the Panjane circuit members have been called on by friends asking what their registration numbers were, but they had no notification to report for service.

U.S. Consul Hyatt Cox also says that he has received no notification regarding citizens who are on the Panjane circuit here who owe allegiance to Uncle Sam tell the same story.

AUTOS WANTED FOR SOLDIERS

For the picnic arranged this afternoon at Patricia Square picnic grounds for the returned soldiers, three or more automobiles are required. Autoists willing to assist are requested to phone Sergt. Major Webster at the Convalescent Home before 1 p. m.

28 INJURED IN WRECK.
Baker, Ore., July 23—Twenty-eight persons were injured, two seriously, when a westbound Oregon-Washington Railroad and Navigation company freight train collided head-on with a passenger train at Hindman, east of here, today.

CIVIC PLANTS BRING PROFIT OVER \$70,000

Earnings During Five Months—Considered An Excellent State Of Affairs.

For the five months of the present year, up to the end of May, three profit-earning utilities of the city (telephone, electric light and power, and waterworks) have brought in the sum of \$70,031.10, which may be considered an excellent showing.

During June the telephone department secured a noticeable increase of \$22,184.71. This enabled the department to show a surplus of \$2,527.36 over all charges and a surplus on operation of \$2,575.61.

With the Telephone. Superintendent Lowry states that there was a gain of 74 telephones and 49 subscribers during the month. The net gain in telephones for June against June of last year is 746, and the gain in subscribers a total of 1,015.

The six months of the present year have shown a total surplus in this department of \$12,648.70, against a total of \$5,545.29, a most noticeable increase. Superintendent Lowry says that the success of the department for 1917 is practically assured. There are now 8,333 phones in use on city lines.

For June, 810,381 passengers were carried on the street railway, and during June of last year 825,204. What is particularly noticeable about the working of the street railway is that there is apparently so little change from the conditions which prevailed last year. Total receipts were \$39,598.68, against \$39,804.15 in the corresponding month of last year.

There was a surplus on operation for the month of \$7,390.26, but including capital charges and depreciation the month shows a total deficit of \$13,679.47. The deficit for June, 1916, was \$13,925.01.

With the Firemen. Thirty-five calls were received by the fire department during June. There were seven grass and brush fires, and the list shows the usual crop of fires caused through carelessness or negligence, such as two fires caused through the stubs of cigar and cigarette ends. Others were on account of children playing with matches, dirty chimneys and similar causes.

Operation of the department cost \$10,622.61, the largest item being \$9,524.35 for salaries.

HORSES FELL DOWN HOTEL COAL CHUTE

Finally Rescued Through The Kitchen, None The Worse For Experience.

A team of horses, drawing a truck load of coal to the Macdonald hotel yesterday, managed in some inexplicable manner to fall down the open coal chute into the cellar of the hotel and were only extricated after considerable difficulty from their imprisonment in the boiler room. Efforts to hoist out the horses by means of a derrick failed and an inclined platform finally had to be built from the cellar to the kitchen, through which department they were led to the open air.

The horses, which were owned by the Humberstone Coal Co., were little the worse for their experience, although they sweated considerably as the result of being so close to the boilers. While awaiting release they enjoyed a substantial lunch of hay and oats and an unlooked for holiday from the business of hauling coal.

MILITARY ORDERS

Regimental orders by Lt.-Col. F. A. Osborne, O. C. 101st Regt. E. F. read: During the next few weeks there will be no parades of the battalion. The various items of the program will be resumed on the 4th of September or should necessity arise a parade may be called before that date of which due notice will be given through the press. Should any members of the battalion leave the city in the interim, they must send in their uniforms to the armours. This can be done on any day except Sundays.

G. S. HENSLEY,
Captain and Adjutant.

MUCH IS DONE FOR BENEFIT OF VETERANS

Interesting Report Of Activities Of G.W.V.A.—Jobs For Soldiers—As To Conscription.

A number of interesting particulars respecting the work of the Great War Veterans Association was submitted at the half-yearly meeting by Secretary-Treasurer B. Rhinewhart. It shows that the association is doing something all the time and is of real assistance to the veterans who comprise its membership and that it is far more than a mere place to smoke and play billiards and listen to an occasional concert.

The association, the secretary-treasurer says, has supplied 160 men free of charge and 160 men it has helped soldiers' dependents to the extent of \$64.50 and it has loaned comrades to tide them over until they receive pay and pension. The sum of \$215, of which \$25 has been repaid. The membership of the association is 363.

The various enjoyable concerts which have been organized have brought in the total of \$1105.65 to the association treasury, a very satisfactory financial development.

Jobs for 82 Veterans

Since taking over the Returned Soldiers' Bureau, in April, 82 men have been placed in positions, for the most part permanent. This does not include temporary jobs. The great trouble for the past month has been to find men for the positions that are offered.

The report points out that the association is getting its water, light and telephone free from the city and that up to the present no grant has been asked for, although Edmonton was the only city in the Dominion which did not make such a grant to the Veterans Association. In the present state of the city's finances the secretary thinks that an application for a grant would be inopportune.

Relations With Public
"I am glad to say," says Mr. Rhinewhart, "that our relations with the general public continue to be cordial, and thanks to the general behavior of the returned men, we still continue to hold the respect and confidence of the citizens of Edmonton, as has been fully endorsed by the results of our last tag day."

It is pointed out that little use has been made of the old high school grounds, given by the school board and the suggestion is put forward that something be done in this matter, as it is a convenient place for all kinds and convenient to the club.

Working in conjunction with Mr. Stutchbury, over 100 cases of patriots and disabled men have been secured. Some of the results of the united efforts of the G.W.V.A. and the Provincial Soldiers' Aid Commission are cited in detail. The various items of provincial legislation in behalf of the soldiers are also enumerated. Respecting conscription the report says:

As to Conscription
"Some people have passed disparaging remarks about our stand in regard to anti-conscription agitators, but I want to say here and now that we are really very serious in this matter of Conscription and have a perfect right to be serious. Those of us who have gone through Hell for the defence of this country, and for the protection of the very traitors who object to the sending of our comrades to our comrades in France, would be poor men indeed, if we stood by and let some worthless fanatic, too cowardly to fight, and too cowardly to reinforce our comrades at the front. However, it is to be noted that anti-conscription meetings have gone out of fashion in Edmonton and similar cities, and the passing of the Conscription Bill, another of our resolutions will have come to a head."

The financial statement is appended as follows:

Social Side of City Life

EDITED BY MISS MARION EYMOUTH

PERSONALS, MEETINGS, CLUB ACTIVITIES, WEDDINGS AND SOCIAL EVENTS

Mrs. Ernest Measam left this morning for Banff, for a week or so holiday.

Mr. Harry Hawkins left on Sunday morning for Lac Ste. Anne, where his mother and other members of the family have been staying for some time.

A large number of holiday makers from Alberta Beach went across the lake on Sunday to Lac Ste. Anne. Rosary Camp was taxed to its utmost to provide for the large influx of visitors. Dinner was served to over forty and all report having spent a very enjoyable time.

The Misses Osborne have returned to the city after a delightful visit to Seba Beach.

Miss Nettie Ross is the guest of Mr. D. C. Craig, Vancouver.

Mr. J. A. Boyd, Nova Scotia, is the guest of his son and daughter-in-law, Mr. and Mrs. H. C. Boyd.

Mrs. G. H. V. Buley has returned from Vancouver and other coast cities.

Miss Alice McConnell is the guest of her sister, Mrs. J. A. McGregor, Calgary.

Mrs. J. A. Milne, president of the Opal circle of the Canadian Red Cross society, begs to thank the ladies from Maybridge, Sturgeonville and Redwater, also the Opal circle for their assistance at the Red Cross picnic held at Opal on July 19th.

Mrs. John E. Pember, of McDougall Court, is leaving this morning on a trip to the coast, visiting Vancouver and Victoria.

Mr. and Mrs. Quinlan, Mr. and Mrs. Neil Duggan and Mr. Fred O'Brien motored to Rosary Camp, Lac Ste. Anne, on Sunday last.

In acknowledgement in connection

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

The Daily Poem

THE HARBOR
Though many a sea be charted,
And many a course be laid,
There comes a night
When the moon comes down
Like a silver crown
To rest on the weary world.

When the last still harbor is made
And the sails are lowered and furled;
When the moon comes down
Like a silver crown
To rest on the weary world.

There deep in the heart is quiet
And calm are the eyes that gaze
Where the shadows glide
On the outward tide
To the breast of the vanished days.
—Scudder Middleton.

with the confederation celebration in the horse show building recently, the following chapters were inadvertently omitted by the party who sent in the report. O-Me-Me chapter, \$20.00; 10th Edmonton Regiment chapter, \$5.00, and First Canadian Chapter, \$5.00.

Miss Woodhouse, Miss Culhane and Miss Wright returned on Monday morning from Rosary Camp, Lac Ste. Anne, after spending a pleasant holiday there.

Miss Jessie Purvis left on Friday to spend her vacation with Dr. W. H. and Dr. Marjorie Potter at their fruit ranch in Kootenai, Idaho.

An invitation is extended to all women interested to attend a meeting at the home of Mrs. E. L. Walker, 10722 13th street on Wednesday at 3 o'clock for the purpose of organizing a society of colored women.

Miss Jane MacMillan, of Calgary General Hospital, is spending her vacation at the home of her parents, Mr. and Mrs. Duncan MacMillan, 81st ave.

The Victorian Order of Nurses wish to thank Mrs. Laidlaw, the Women's Volunteer Reserve and all those who contributed to make their card day a success.

Mrs. George Scott accompanied by her little son is visiting her mother, Mrs. Charles Campbell, North Sydney, Cape Breton.

Mr. and Mrs. K. Peer spent the week-end in Calgary.

Major Kerby, of Calgary, who spent a few days in town last week, has returned to the southern city.

Mr. and Mrs. C. Lucas spent the week-end in Calgary, guests at the Palliser.

Mr. and Mrs. A. G. Browning are visitors in Calgary for a few days.

Miss Hazel Auld spent the week-end at Chipman with her parents, on the ranch.

Mr. and Mrs. N. F. C. Leslie are enjoying a short holiday at the coast.

Miss Alice McLean and Miss Pauline Martin are guests of Mrs. (Dr.) Archibald at Gull Lake.

Mrs. J. Connor and her daughter, Mrs. J. W. Shera and son have gone to the coast cities, Vancouver, Seattle and Portland.

Mrs. Marshall is visiting her mother Mrs. A. N. Hine, Inuvik, Alta.

The young women of First Presbyterian church are entertaining the soldiers of the Convalescent Home to an old-fashioned party on Wednesday night of this week. All young women of the church are urged to attend and may receive all particulars from Miss K. E. McCormick.

Miss Alice Orr left Monday morning for the coast for a two months' vacation.

Mr. and Mrs. Dan. McMillan from Saskatchewan, who have been visiting Mr. and Mrs. D. J. McMillan, 12401 street, for the past few weeks left for their home on Sunday and expect to motor all the way.

Mrs. R. G. Watt, who spent a week in Provost attending the Chautauqua, has returned to the city.

Mdm. Cote and four young sons are going to Rosary Camp, Lac Ste. Anne, Cap. Lac Ste. Anne to spend a week there.

Miss Humbert has left for Rosary.

THE ST. LAWRENCE ROUTE

Canadian Service to and from Scotland.

When sending for relatives or friends book them.

ANCHOR-DONALDSON LINE

Full information from any R.R. or S.S. Agent, or H. E. LIDMAN, General Agent, 449 Main St., Winnipeg, Man. Ph. M. 5812

410 Granville St., Vancouver, Ph. B.C. 3199

Camp, Lac Ste. Anne to spend a week's vacation.

Mrs. Thompson, Mrs. McAulley, Miss Mahar, Miss Ross Laurendeau, and the Misses Paradis left Sunday morning for Rosary Camp, Lac Ste. Anne.

F. H. Smith, post office inspector, of Edmonton, paid a business visit to Calgary and Alliance Thursday.

Word has just been received in the city that Miss Anna L. Puschke of Edmonton has reached England in safety. Miss Puschke left Edmonton in May with Miss Dunlop and Miss Johnston for overseas nursing service and sailed from Montreal on June 26.

Sheriff and Mrs. Gunn, of Edmonton, Mr. and Mrs. Monteith of Calgary, Judge C. A. Stuart of Calgary, Judge Morrison of Edmonton and A. Phimister of Peace River, formed a party who went down the river on the D. A. Thomas, Mrs. Byrd, of Vancouver, who has been visiting Mrs. T. W. Quayle of Edmonton, has returned. Albert Quayle returned with Mrs. Byrd for a visit. Mr. and Mrs. F. E. Algar who have been holidaying in Edmonton, returned to the village on Wednesday. Mrs. W. H. Kelly, who spent the past fortnight in Edmonton has returned home—Peace River Standard.

Mrs. Crawford and her daughter, Miss Beatrice Crawford, accompanied by Mrs. Crawford's granddaughter, Miss Isabella, leave on Friday for the coast to see some friends. Mrs. Saunby, a returned missionary from Japan is the guest of her father and sister, Mr. and Mrs. Lund, 12616 street till the end of the month. A picnic is being arranged at Capital Hill on Tuesday for Mrs. Saunby at the home of Mrs. B. F. Gardiner.

Mrs. Helen Gregory McGill, of Vancouver, B.C., is expected in the city Monday night by the C.N.R. to be a guest at the home of her mother, Mrs. McGill. It will be remembered, has just recently been appointed judge of the juvenile court of Vancouver, B.C., and is one of the few women who hold such positions in Canada. Mrs. McGill is preparing a book on "Parliamentary Procedure" which will doubtless be largely used by the women's organizations. "Wives, Mothers and Daughters" is a finished book of Mrs. McGill's which deals with the legal status of women of British Columbia. A member of the Women's Canadian Press Club, Mrs. McGill will receive some entertainment from the local press club if her stay permits. Mrs. McGill is not only literary but holds a degree in music being a Mus. Bac.

Call by Council For Conservation

The National Council is sending out a call to the various local councils to help in the conservation of food and the protection of the environment. The following is the letter, which Mrs. Torrington, as president of the National, has sent to the local councils:

You will remember that shortly after the outbreak of the war the services of the members of the National Council were freely offered to the government for any patriotic work that might be given them to do.

Again, when the appointment of a director of National Service was made the National Council by its executive committee offered to serve in any way possible, which offer was most cordially acknowledged by the director, general, Mr. R. B. Bennett.

The call to redeem these promised offers of service has now come and the Council is asked by the National Service Committee of the government to do a very definite piece of work in connection with the thrift and conservation of food. This is to undertake all over Canada the careful distribution of 100,000 small posters in factories, business establishments and homes, with intelligence and good judgment, it being felt by the director that the matter is too important to trust to the ordinary methods of distribution.

A small committee of the Council has been appointed in Ottawa, with Mrs. Shortt as convener, to organize this work through the National Council and the provincial vice-presidents are asked to supervise it in their respective provinces.

The director general says: "Unless this is done, the war will be lost to each individual poster our campaign will largely fail."

You will receive further details of this campaign, and you are urged to express your conviction that the council having been definitely called upon by the government to do this special piece of work for king and country, will do it with thoroughness and enthusiasm.

(Signed)
ROSELINE R. TORRINGTON,
President.

Are Successful In Musical Exams.

The following are the successful students of Alberta College North in the recent musical examinations of the Toronto Conservatory of Music:

Pupils of Mr. Grant (Piano):

Introductory Grade—Miss Jean Nesbitt (1st class honors); Miss Vonda Wilson.

Elementary Grade—Miss Esther Kelly.

Primary Grade—Miss Reita Brown, Miss Dorothy Bissett, Miss Frieda Surman.

Junior Grade—Miss Elizabeth Howard, Miss Mary Fraser.

Intermediate Grade—Miss Vera Cooke, (honors).

Senior Grade (A.T.C.M.) Miss Ethel Brownridge.

Pupils of Miss Howey (Piano):

Introductory Grade—Master John Reed, Miss Dora Brohman.

Primary Grade—Miss Doreen Wood, Miss Hazel Mathieson.

Junior Grade—Miss Rosanna O'Grady.

Pupils of Mr. Putland (Piano):

Introductory Grade—Miss Gladys Anderson (1st class honors); Miss Intermediate Grade—Miss Cedric Edwards, (1st class honors).

Pupils of Mr. Putland (Theory):

Primary Grade—Miss Elizabeth Howard, Mr. Hector McFadyen.

Primary Rudiments—Miss Elizabeth Howard; Mr. Hector McFadyen.

Junior Harmony—Miss Cedric Edwards.

Junior Counterpoint—Miss Vera Cooke, Mr. Cedric Edwards.

Junior Harmony—Miss A. D. Bliss, Miss Vera Cooke, Mr. Cedric Edwards.

Intermediate Form—Miss Ethel Brownridge, Miss N. D. Ellis.

Women's Exchange

TODAY'S INQUIRIES

What is a good way to cook ribs? Summer until tender short ribs of beef which have been well broken. When nearly done, add one medium-sized onion, minced and fried until brown, one can tomatoes, one can pimientos, one clove garlic minced, one cup minced celery, one teaspoon Spanish pepper or paprika. Season with salt, thicken slightly and let simmer until tender. Garnish with parsley and serve.

Can you give directions for a tasty soufflé?

With two tablespoons of butter, melted, blend carefully three tablespoons of flour and gradually add half a cupful of scalded milk. Then add half a teaspoonful of salt, a pinch of cayenne and a cupful of grated cheese. When smooth remove from the fire and add the well-beaten yolks of two eggs. Cool the mixture, then fold in the stiffly beaten whites of two eggs. Pour into a buttered pudding dish and bake for twenty minutes in a slow oven. Serve quickly before it has fallen.

Is there a recipe for rice and sultana cake?

One pound of flour may be mixed with half a pound of ground rice and then rubbed into half a pound of butter or margarine. Add a little citron

looking. A prize can be given to the first successful one.

If the ink is sufficiently smooth an informal dance can be given.

Invitation to a Shower.

Dear Madam—Will you kindly print a form of invitation (and if same may be written on a correspondence card) for a linen shower at which there are to be about twenty-five guests? Also please give suggestions for some refreshments which will be not too elaborate.

H. L. R.
It is better to write on small white note paper, but if the twenty-five guests are girls you know very well a pretty correspondence card may be used. Note paper is in better form, however.

The invitation should be written as follows:

2624 Walnut Street
Miss M. L. R.
requests the pleasure of
Miss
company on Thursday, June the
twenty-eighth, at half after
three o'clock to meet
Miss
Linen Shower.

Serve sandwiches of nut bread and cream cheese cut very thin, white bread and lettuce sandwiches mixed with a mayonnaise dressing, fruit, lemonade, iced tea, light cakes, fudge, raspberries and cream.

orange peel cut in thin slices, half a pound of finely granulated sugar, two teaspoonfuls of baking powder, two well-beaten eggs and a little milk. Mix well together and add eight ounces of sultanas. Bake for about an hour and a half.

Who should give the bachelor dinner before the wedding, the bridegroom or the ushers?

This is an optional matter. Usually the bridegroom gives the dinner, but if the ushers wish to give it is perfectly correct for them to do so.

How should majolica be cleaned? Wash in warm (not hot) soda water with a clean, soft cloth; rinse in hot water and wipe almost immediately. Beware of cracking the glass by setting in heat or boiling water.

What will take the shine off a dark blue suit, too a serge dress? Have your friend sponge the shiny portion with vinegar and warm water, then pressing it with a damp cloth laid over it? Another method is to first press it, then raise the nap by rubbing gently with a piece of fine emery paper. This is perhaps more lasting than the first method, although neither is permanent, for after the nap of cloth has begun to wear off the treatment must be renewed quite frequently.

To the Editor of Woman's Page:
Dear Madam—I am a professional young man, 22 years of age, have a first class position in a large firm for military service. For the past two and a half years I have been keeping company with a young lady who is 21 years of age now. We think of the world and all of each other. (1) Do you think we are too young to become engaged? (2) Would the mother of the young lady have to be consulted? (3) As a rule are engagements announced publicly, immediately they take place? (4) In the correspondence of an engaged couple what form of salutation and conclusion are generally used? Yours very truly,

J. D. A. City.

(1) No, you are not too young to become engaged. (2) From the way you write I imagine the mother is the guardian of the girl; that is, that her father is B.C. and is temporarily absent, in which case the mother's consent is certainly to be gained. (3) The ring on the young lady's hand will declare to her friends and acquaintances that you are engaged. (4) The correspondence of an engaged couple is usually very sentimental, use your own judgment.

Send Impersonal Gifts

To the Editor of Woman's Page:

Dear Madam—I am a certain young lady quite frequently and she always invites me to any parties she has. We are simply good friends, but I feel that I owe her a good deal for the very nice time I have when I am at her parties and meet her friends. Is there any way I can show my appreciation besides just telling her?

Send her now and again a few flowers, a popular book or a box of candy. These attentions are not looked on as serious and every girl appreciates them. It is a permissible and graceful way of expressing your gratitude for her kindness and general good comradeship.

Use of Green Ink in Correspondence

To the Editor of Woman's Page:

Dear Madam—Will you please tell me whether it is incorrect to write with green ink? I wrote a letter in green ink and I have not received an answer. So I wonder whether I am person was insulted because I used it.

EDITH G.

The use of green ink or, indeed, any ink other than blue or black, is incorrect, although the person to whom you wrote is rather more at fault for neglecting to answer your letter under any circumstances.

Wore Another Man's Ring

To the Editor of Woman's Page:

Dear Madam—I am a girl seventeen years of age and am engaged to a nice looking young man, but a few days ago he saw a ring on my finger and got angry at me. Could you tell me if I did wrong, and must I speak to him first? The ring belonged to a fellow whom he is to marry. He is only a friend of mine. Please be kind enough to tell me who is to blame.

MABEL.

The young man is quite right to resent your wearing another man's ring if you are engaged to him. Explain to him that it was only a joke.

Games for a Lawn Party

To the Editor of Woman's Page:

Can you suggest a game or games to be played at a lawn party given in the evening?

A cobweb party could be played very well in the semidarkness. Have strings or tapes and wind them loosely around objects all over the place, then have the guests each take an end of one and unwind it. Little favors can be attached to the ends.

Another game is to give each man a lantern and the name of a girl for whom he is to search. He must do this without speaking or telling the name of the person for whom he is searching.

The Home Beauty Parlor

MAE MARTYN.

Dolly: I made my faded "strings" hair look its natural color again and become soft, fluffy and brilliant by shampooing with caustic, a teaspoonful of which I dissolved in a quart of water. It gently, yet thoroughly, dissolved dust, dirt and excess oil, and when I rinsed it out, left the scalp healthy and pliant. Since my first trial I have used nothing but this.

Ignobles: Yes, you can be sure of hair beauty by using the "strings" hair tonic. Your hair of itching dandruff by use of this economical home-made tonic, which will make your scalp so healthy that the hair naturally grows long and heavy. Get an ounce of quinine at your druggist's, dissolve it in a half pint of alcohol, and one-half pint of cold water and rub into hair roots daily.

Antoinette: Instead of making over your gowns because you have outgrown them, why not try this harmless flesh reducer? Get four ounces of paraffin from your druggist. Dissolve it in one and one-half pints hot water. Take a tablespoonful before and after each meal and a gradual decrease in weight without loss of strength or sagging skin. It is simple, harmless, and effective. Requires no dieting or exercise.

Miss O: The "face cream without grease" which you ask about is easily prepared at home by this recipe: Get from your druggist one ounce of almond oil, dissolve it in one-half pint cold water. Add two teaspoonfuls glycerine, stir well and let stand over night. Apply it frequently, and prevent wrinkles and all skin flabbiness. It is cleansing, soothing and healing and there is nothing better to relieve chapped

pores, ruddiness and all roughness or redness of skin.

Christine: For your sallow, pimply skin which indicates impure blood, you should make up and use the old-time karende blood, kidney and liver tonic. This is prepared by pouring one ounce karende into one-half pint alcohol (do not use whiskey) and then adding one-half cupful sugar and hot water to make a quart. Take a tablespoonful before meals and your skin will soon be clear and beautiful. The karende tonic is good for the badly pained aches, because it eliminates from the system the poisons causing them, and its stimulating effect frequently prevents serious sickness.

Colla: You say, "I am a slave to my powder rag." Why not try this fine liquid beautifier? It is lasting in effect and economical, besides being fine to white and tone the skin and rid it of sallowness or blemishes. Get a ounce of sorbus, and two teaspoonfuls glycerine and one-half pint hot water or witch hazel. This makes a big quantity and is far better than the ordinary face powder. It will be very becoming and will seem like a part of your skin.

Millicent: Don't be frightened into buying eye-glasses before you really need them. It is better to strengthen the eyes than to aid their weakness. For some years I have used this simple home-made tonic, which has been heard of by thousands of women. Dissolve an ounce of crystals in one-half pint of water. Two drops daily over several times daily, will give relief to tired or aching eyes, and soon make them clear and sparkling.

Betty Dean's Beauty Book, \$5.

War Time Economy

COCOA versus TEA AND COFFEE

THE war is being fought in the kitchens of Canada, just as truly as it is in the trenches of France.

The housewife that is genuinely anxious to help the cause of our Empire will use Cocoa on her table in preference to tea and coffee, which—delightful as you may find them as mild stimulants—have no real food value, and hinder the proper digestion of starchy foods, bread, cakes and potatoes.

Saving at Home Serves in the Trenches

There is more nourishment in a cup of cocoa than in a cup of chicken soup, bouillon or beef extract. You require less of other foods when you drink cocoa. You save money on your table expenditures. The money you save will enable you to purchase War Savings Certificates. For \$21.50 you can buy at your nearest bank or Post Office Certificate worth, in three years, \$25.00. Cowan's Perfection Brand Cocoa for the table, and Cowan's Maple Buds or Milk Chocolate Bars for most delightful confections will be found at the stores of all dealers throughout Canada.

Ask for Cowan's ACTIVE SERVICE Chocolate, just what our Soldiers in the trenches appreciate. Specially manufactured to meet their needs.

COWAN'S
Perfection
COCOA

CANADIAN OFFICERS GIVEN STAFF JOBS

Several Lieut.-Colonels Go On L. of C. With Pay of a Captain

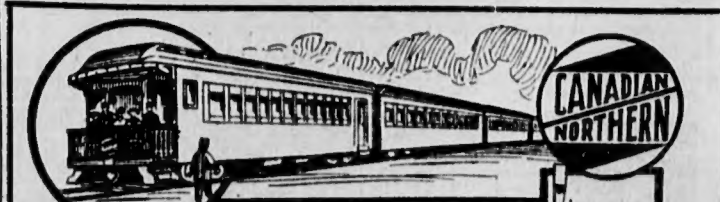

London, July 23—The surplus of Canadian officers in English camps has been partially solved by allotting them to the Imperial forces for employment on the lines of communication in France. It is stated that they will retain their present rank, but receive the pay of a staff lieutenant equivalent to a captain's, while the separate allowances will be as hitherto. Among the officers selected are the following: Lieut.-Colonels J. B. McPhee, G. T. Chisholm, W. L. McGregor, H. B. Combe, W. W. McVicar, R. Pritchard.

J. B. Seaborn, F. S. Leach, Major Knox-Lett, A. T. Reynolds, T. Cunningham, T. E. McNutt, Captains A. V. Tremblay, C. A. Struble, V. L. Bell, H. B. Montzambert and J. Tyrwhitt.

VOTE 640 MILLIONS FOR WAR AIRCRAFT

Washington, July 22—The House bill appropriating \$640,000,000 for the aviation service was passed late yesterday by the senate without amendment or a record vote and with less than an hour's discussion. It now goes to the president.

Details of plans for expending the huge sum approved have been withheld, but it is known that it provides for about 22,000 airplanes and nearly 100,000 men.

TUESDAY, JULY 24, 1917.

The more food waste the higher the prices.

If the Dominion civil service can be cut down by fifteen per cent, as is proposed, it should have been done three years ago.

The Unionist business committee is calling on the Allies to "break" Germany by taxing themselves for the privilege of trading with each other.

Amsterdam reports that Von Tirpitz is going into politics. Frightfulness is still dominant. Else he would be going into retirement.

Who wins the election is only important in so far as it affects the winning of the war. Efficiency is the first requirement to the successful direction of the national war effort. And efficiency from the present Government it is useless to expect.

Under the United States selective draft bill every military district is required to furnish a statement of men. As the Canadian bill is defended on the merits of the United States bill it should contain a similar provision.

French airplanes have been showering bombs on German towns "in reprisal for the bombing of French towns by German airmen." Does anybody think less of France for trying to protect its citizens by adopting the means which the enemy seems to think effective for breaking down the national spirit of a foe? Would Britain really suffer loss of prestige if it refused longer to give the enemy immunity for the slaughter of British women and children?

The fair is also a market. The extent to which the Edmonton fair has developed along this line may not be fully understood by casual visitors. It is estimated that this year fully forty thousand dollars' worth of live stock changed hands at the exhibition grounds. Most of this was pure bred or well bred stock, brought to the show by breeders and there sold to farmers for breeding purposes. The sales show that a good many farmers are putting the unusual returns from their grain crops into stock, and thus preparing for engaging more extensively in mixed farming, an altogether desirable development, alike from the standpoint of the farmer and of the province. A large proportion of the stock was also shipped into the northland, where the settlers are making extensive use of the loaning powers granted them under the "cow bill" and the co-operative credit bill, to stock their holdings, and thus turn the waste pasture and wild hay into useful commodities—cash. Altogether this is a feature of the fair in which everyone who is concerned about the development of our agricultural possibilities must take satisfaction. It will be hoped that the exhibition may become more and more recognized as a place where breeder and farmer meet, and thus an agency in promoting the growth of the stock-raising branch of the farming business.

The Saskatchewan court of appeal has decided that the provincial law is ultra vires which prohibits the sale of liquor within that province for export to points outside. At the last session of the

legislature the Alberta Liquor Act was also amended, so as to forbid the carrying on of export business from this province. The decision in Saskatchewan may cause the legality of the Alberta Act to be also tested in the courts. That in either province the setting aside of the law will end the effort to do away with the export trade is hardly likely. In both provinces the public seem to have reached a very positive decision that the booze business has to go, "root and branch," and what the public want these days they are unusually likely to insist on getting. What is to be expected in Saskatchewan—and also in Alberta if a similar decision should render the Act here of no effect—is a still more insistent demand for Dominion legislation which will supplement the provincial laws and establish what our neighbors to the south call "bone dry" prohibition.

Even the grain buyers are complaining about feeling the "pinch" of the high cost of living. At that the grain buyers are lucky. If it is a "pinch" for them it is a regular squeeze for the rest of us.

Either sewage should be kept out of the bathing pool or the children should be kept out of it. And unless it is a dead certainty that the sewage can be, and will be, kept out of it, the safe course is to keep the children out.

The Food Controller wants us to eat more fish and less flesh. Like his previous admonitions, this is most excellent advice. But, also like them, it is presently impracticable. Most people cannot afford to eat their share of either.

Food control should not only prevent waste of food, and secure economy of the kinds of food that are most scarce; it should also secure to everyone a fair chance for his share of what is available of each kind of food. This it can only do if prices are controlled down to their proper level.

The Medical Health Officer notes an inclination on the part of parents to say nothing about it when their children have the mumps. Perhaps they are afraid the children would be taken to that isolation hospital. From what the visiting committee of the Hospital Board say about the institution that would excuse a good deal of secrecy.

The outrageous prices now demanded for many standard kinds of food do undoubtedly lessen the consumption of them. But they do this at the expense of the many, and without affecting the few. All the economy is imposed upon the poor—that is, upon those who most need an abundant supply of such food to keep them in condition for the hard work they have to do. If food has to be saved, everyone should do his "bit" toward saving it. In other words, everyone should be given a fair chance to get his share of the amount available. Present prices make it impossible for a person in ordinary circumstances to get his share of many kinds.

Without neglecting the perennial duty to "swat the fly," it would be good business on the part of the city authorities, or the Provincial Department of Agriculture, to start a campaign just now to "spud the thistle." This vegetable Hun is not a native of the West. But he is an intruder, and he is intruding at a rate that ought to be alarming. The vacant land in the Hudson's Bay Reserve has already a fair crop of as luxuriant specimens as can be found anywhere, and there are probably as many scattered elsewhere about the city as there are in the reserve. Edmonton, in fact, is in a fair way just now to seed down the whole surrounding country to thistles, and to thus impose one of the most persistent curses imaginable upon this and succeeding generations of farmers. It is not the worst thistle, so deservedly hated in Manitoba—though that is also here—but the genuine, old-fashioned, Eastern Canada thistle. Something ought to be done about this, and done now, before the seeds ripen and are scattered by the winds.

LEGAL INQUIRIES

Legal questions will be answered in the columns of The Bulletin, after being submitted to The Bulletin's own legal representatives. Write on one side of the paper only. Be brief. Send stamped envelope for reply.

To Bulletin Legal Dept.: How long is a chattel mortgage good providing the interest is paid after the last interest is paid?
If the chattel mortgage is under seal, which is usually the case, action may be brought on the mortgage within 20 years after the maturity or from the most recent payment on account of it whichever is last. If the chattel mortgage is not under seal, the period will be six years.

Big Business and Conscription.

War conditions create new problems. Each new suggestion is the foundation of another. "Win the war" is a popular slogan; and "selective conscription" is readily accepted as the "easiest way." The Government proposal to conscript 100,000 men for military service has been before Parliament and the country for some weeks. The longer the discussion continues, the more evident it appears that the Conscription Bill receives its support in the belief that its selective powers are for the purpose of conscripting the other fellow. The idea is that instead of "letting George do it" under the voluntary system, George will be made to do it under conscription. In any case, it will be "George—not me." As soon as it appears that any particular interest is likely to be touched it "puts up a holler" that the nation will be ruined if it is touched. The latest and loudest of these many "hollers" was put up in the House of Commons on Tuesday, July 10th, by the Finance Minister.

It has seemed good to many of those who have desired to support the Government in its proposals to declare that they favor conscription of men if accompanied by corresponding conscription of wealth. The idea seemed popular and it spread; gathering force as it spread. And now it seems that wealth has taken the alarm and following the lead of some of those who have claimed to speak for organized labor, threatens a strike that will even more effectually tie up the activities of the country in the prosecution of the war than the threatened general labor strike against the conscription of men.

Hansard reports:
"Hon. Sir Thomas White (Minister of Finance): I demand a public statement upon a matter of public importance. It has been officially drawn to the attention of the Government that the use of the expression 'conscription of wealth' in the debates in Parliament and by public and other bodies outside of Parliament and by the Press in its news reports has caused a certain uneasiness among those whose savings constitute a vital factor in the business and industrial life of the Dominion and are so essential to the credit and prosperity upon which our efforts in the continued prosecution of the war must largely depend. I desire to say on behalf of the Government that there exist no apprehensions on the part of the public that any action of a detrimental character will at any time be taken with respect to the savings of the Canadian public. On the contrary, it will be the policy of the Government in the future, as in the past, to encourage in every way possible the exercise of the thrift and economy resulting in national savings which have enabled Canada to maintain her credit and improve her economic position during the war."

The Finance Minister did not take the extraordinary course of announcing limitations upon the future financial policy of the Government without compelling reasons. There is no doubt from his use of the words "officially drawn to the attention of the Government," coupled with the allusion to "uneasiness among those whose savings constitute a vital factor in the business and industrial life of the Dominion," that the banks, having anticipated the possibility of the withdrawal of funds on deposit for investment in, say, untaxable war bonds as a "safety first" step against any possible conscription of wealth, took the Minister's ear—metaphorically—between thumb and finger, at the same time telling him to stand up and say his little piece. Which he did, committing the Government in good set terms against the conscription of wealth under any new form of taxation or expropriation. He said:

"Any taxation to which it may be necessary for the Government to resort from time to time will be in accordance with legitimate and established forms of taxation sanctioned by the tradition and experience of British self-governing communities."

But pressure of public opinion has compelled him to abandon his former opposition to the income tax and on that subject he said:

"This statement, therefore, must not be understood as precluding legislation providing for income taxation upon those whose incomes are such as to make it just and

equitable that they should contribute a share of the war expenditure of the Dominion."

It is established beyond argument that big business in its industrial department, for selfish reasons, caused the Government to slacken recruiting effort until voluntary enlistment was in large measure killed. Now we have big business in its financial department demanding that the Government's financial activities towards winning the war shall be limited and directed by their requirements and for their advantage.

The demand for the conscription of men comes from the centres where big business is more securely established. It is the leaders of big business who, by public speech, desire to fan the flame of patriotic enthusiasm in the breasts of other men, so that they shall offer themselves for, or will submit to, the sacrifice of war in the persons of themselves and their families. And it is the same leaders of big business, industrial and financial, on evidence that cannot be gainsaid, who have in secret and with all the influence they could exert on a Government that was their own creation, caused to slacken or to stop the voluntary flow of men, and have now threatened to stop the flow of money, needed in doing Canada's part to win the war.

ANSWERS

This department does not pretend to be infallible. It will endeavor, however, to answer questions sent to it by readers of The Bulletin to the best of its ability, reserving the right to ignore all that are trifling or of concern only to the questioner. To receive attention, every inquiry must bear some name and address of the questioner. This information is not wanted for publication, but as an evidence of good faith.

A Good Cistern.

To the Bulletin: How can cistern water be kept sweet.
R. D. P.
It is a good idea to have the supply pipe run nearly but not quite to the bottom. There the water is always purest. At the very bottom there is always "settling." In this spot from the roof there should be a joint which should be drawn aside during dry weather and not replaced and the water allowed into the cistern until the roof has been well washed off.

Trouble with Liquid Soot.

To the Bulletin: We have trouble with what appears to be a liquid soot, which runs down the wall underneath the pipe hole into the chimney. Can you tell me the cause and what will prevent it?
D. A. H.
It is possible that some moisture has come down the flue from the outside, washing the soot through the opening in the chimney.

First Inventions.

To the Bulletin: 1. Who invented and first made use of a plough? 2. Who first made use of a spinning-wheel?

We have not the information available to answer these questions.

Happy Idea

The railway board had met to consider the case of old Tom Jones, who in a train accident had become deaf. "Well," said a director, "old Tom has been with us a long time, and we want to find him a new job. What do you suggest?"

"I know," said the chairman. "Let's put him in charge of the complaint department."

Him Her

A lady stopping at a hotel on the Pacific Coast rang the bell the first morning of her arrival, and was very much surprised when a Japanese boy opened the door and came in.

"I pushed the button three times for a maid," she said sternly, as she dived under the bed covers.

"Yes," the little fellow replied, "me she."

The Challenge

"The world must be made safe for democracy."—President Wilson, April 2, 1917.

Not with the rolling voices of the guns
Nor yet with sheen of sun on bayonet
Do we salute the world, this day of days,
Strong to uphold the right.

Power shall answer might in days to come,
Shell speak to shell beneath a flaming sky.
And soldiers swarm the narrow ways
Proud of their chance to die.

But what is for the future; here today
After long waiting have we now found tongue,
And in the forum of the world's acclaim
Immortal challenge flung.

He must be safe who dwells with humble hands;
He must be safe who toils in storm and heat;
Never again the plaything of dull kings,
Chained to ambitious feet!

Only for this we go into the muck:
Not for revenge—yes, though our dead be hid
Deep in the sea and call with clarion voice—
Our greatness must forbid.

But to this monstrous thing which men have made
Out of long ages strong of hate and might—
This bloody mask called Emperor or King,
This horror of the night—

We call a halt! and bid it stand and draw!
Beat the long roll and all our bugles play!
Hark well our challenge! Ye who crowd the night!
It is the dawn of day!
—Dysart McMullen in The Outlook.

At Niagara Falls

"Every one," said a novelist, who has recently come to America, "hears some absurd ridiculous and inept remark of Niagara. You stand and gaze at the falls, profoundly moved, and then, of a sudden, something is said, and the effect of the grandeur goes forever."

"The day I first saw Niagara a man touched my arm as I looked up at these white waters. I turned to him. He had the smile of the confirmed joker.
"It seems a shame," he said, 'to see all this going to waste.
"What are you?" I said, 'an electrical engineer?
"Now," he answered, 'a milkman."

Current Comment

Faith Is Needed

From the Vancouver Sun:
Faith is what is needed in this country now more than ever when the food economy bug is so rampant. Faith is what enables a man to eat hash.

War-Time Profits

From the Toronto Telegram:
Britain's and Canada's food needs are permanent. The industries that meet these needs are not entitled to claim the same margin of profit as the industries that will be largely out of business when the war is over. A newspaper would be well content to pay war taxes on the average annual margin of profit that such newspapers earned for five years previous to the outbreak of war. All the other permanent industries of the country should be in the same position as the newspaper industry. The flour mill, the packing house, the cold storage plant are permanent industries. The food-producing industries and all other permanent industries earn over and above fair average peace-time profit should be conscripted into the public treasury.

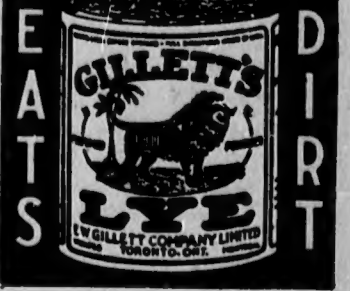

Germany's Conduct and Fate

From the Round Table:
This, then, is the one supreme truth which is being taught the world: That which occupies the mind enters into the conduct, just as that which is near the heart invades the intelligence; and what enters into conduct fashions fate. It is not safe in educating citizens to think of nothing but industrial and commercial success and to forget morality. Germany has done so. Her delight has not been in the law of the Lord. She has meditated therein neither day nor night. And she shall not be like a tree planted by the rivers of water, that bringeth forth fruit in his season. Her leaf shall wither, and unless she changes her soul nought that she doeth shall prosper. She has issued a challenge to the nature of things which is moral; and she is in process of being worsted in the fight.

With The Humorists

He Couldn't Tell a Lie
Inquiring Lady—How much milk does your cow give a day?
Truthful Boy—Bout eight quarts, lady.
Inquiring Lady—And how much of that do you sell?
Truthful Boy—Bout twelve quarts, lady.

Nursing an Illusion
"Are you trying to raise all your own money and vegetables?" asked the hired man.
"No," replied Farmer Cornstossel, "only just enough to give the imaginations of the summer borders something to swing on to."

A Gentle Hint

Hints and suggestions are often more efficacious than heroic measures. A man in a barber's chair had a big claw on his watch chain.
"Bear's claw?" said the barber.
"Yes."
"I suppose you killed it yourself, sir?"
"How many balls did it take to kill him?"
"None."
"My goodness, did you kill him with a knife?"
"No."
"Then—then—er—"
"I talked him to death," said the man in the chair significantly.

Lighten the Day's Work by eating food that does not use up all the vital powers in an effort to digest it. Every particle of **Shredded Wheat Biscuit** is digested and converted into healthy tissue and caloric energy. In the present food crisis every housekeeper and mother should demand bread that is 100 per cent. whole wheat. Shredded Wheat Biscuit is made of the whole wheat grain prepared in a digestible form. Better than meat, or eggs, or potatoes, and costs much less. For breakfast or any meal with sliced bananas, berries or other fruit.

Made in Canada.

He'll Be Happy When He Gets This

Whether "Jim" is on a man-of-war or in a trench, he's going to have long-lasting enjoyment and a lot of benefit from

WRIGLEY'S
The Famous Chewing Gum

Chew it after every meal

It's one of the outstanding features of the war—this great pick-me-up, with its tonic effect on stomach and nerves. Are you using it? If not, you are missing a big comfort.

The Flavour Lasts

A "sameness" that is most enjoyable—the daily, unvarying goodness of a cup of "SEAL BRAND" COFFEE. It never fails to greet you with that same exquisite fragrance, amber clearness and delightful flavour, that win people with the first cup.

In ½, 1 and 2 pound tins. Whole—ground—pulverized—also fine ground for Percolators. Never sold in bulk.

CHASE & SANBORN, MONTREAL.

Adventures of Uncle Wiggily

By Howard R. Goss

Uncle Wiggily and the Waterfall

Copyright, 1917, by McClure News-Paper Syndicate.

"Oh, Uncle Wiggily! Please come and play with us!" called Jimmie Wiggibobble, the boy duck, one morning as he stood quacking out in front of the hollow stump bungalow, where Uncle Wiggily Longears, the rabbit gentleman, lived.

"Nonsense! Run away!" Uncle Wiggily can't come out to play!" said Nurse Jane Fuzzy Wuzzy.

"Oh, yes, he can!" exclaimed the old rabbit gentleman himself. And down he came off the porch, carrying his tall silk hat on one ear, while under his paw he had the red, white and blue striped rheumatism crutch that his muskrat housekeeper had gnawed for him out of a cornstalk.

"I'll come and play," said the bunny uncle, twinkling his pink nose.

"Oh, goodie!" quacked Alice Wiggibobble, the duck girl sister of Jimmie. "We're going to have fun at the waterfall," added Lulu, the other duck.

So Uncle Wiggily and Lulu, Alice and Jimmie, set off through the woods to go to where the waters of the little brook tumbled and fell over the green, mossy stones, making a waterfall.

"Dear me!" exclaimed Nurse Jane Fuzzy Wuzzy, shaking her tail as Uncle Wiggily went off with the duck children. "I never saw such a childish old rabbit in all my life. Never!"

"But like a pinwheel, only it's different," explained her brother. "You make it of two little pieces of wood, put together in the shape of a letter X, and you fasten it on a stick so it will whirl around, and when you hold it under the falling water it turns like an electric fan or a whirlwind."

"Please make one for us," said Alice.

"I will," said Jimmie, and he did. Uncle Wiggily, with his strong teeth, gnawed out of a tree the wooden paddles for Jimmie's water wheel, and soon the duck boy had it together.

Leaving the duck children at their fun, Uncle Wiggily wandered on and on through the woods.

"Perhaps I may have an adventure," he said. "I hope so."

No sooner had he said these words, just as it happens in fairy stories, than the rabbit gentleman heard a

voice saying most sadly:

"Oh, dear! Oh, dear! I'll never get it done at this rate, and if I don't there won't be any for dinner! Oh, dear! What shall I do?"

"That sounds like trouble where I may be able to help," said Uncle Wiggily, sort of sprucing himself up and twinkling his pink nose.

He looked behind the bush, and there he saw a little mouse lady. Beside her was a churn with a round wheel instead of a handle, and the mouse lady was turning this wheel slowly.

"What is the matter?" asked Uncle Wiggily.

"Oh, I can't get the butter churned," answered the mouse lady. "I put the sour cream in my churn, and I've turned and turned and turned it, but I cannot turn fast enough, and I fear the butter will not be made in time for dinner. Oh, dear!"

"Let me try," said Uncle Wiggily. But when he turned the churn for the mouse lady he turned too fast, being much stronger than she was, and she cried:

"Oh, that will never do! It would be all right to make ice cream, turning fast that way, but not for butter!"

"Hut! Then I know just what to do," said Uncle Wiggily. "I'll hitch my churn to Jimmie Wiggibobble's water wheel, and that will turn around just fast enough to make the butter."

So he took the mouse lady's churn, sour cream and all, to the banks of the little brook, and when the wheel of the churn was made fast to the water wheel with a strand of honeysuckle vine for a belt the splashing water wheel churned the butter as nicely as you please.

"Oh, this is lovely!" cried the mouse lady as she took out the yellow lump of butter on some green crane leaves. "Now you must all come to lunch with me and spread some of my new butter on your bread and carrot jam."

And they did, Uncle Wiggily included. And every one said Jimmie's waterfall wheel was fine.

So you see everything came out all right, and if the bookworm doesn't go fishing with the leopold and tickle the froggy puddle, I'll tell you next about Uncle Wiggily and the sour grass.

Letters to Uncle Tom

Likes to Go to School

Dear Uncle Tom—I have wanted to write to you for a long time. I go to school just opened in April. We have twelve scholars and like to go to school. I live on the farm. I have two brothers and two sisters.

ELIZABETH LENEHAN, Genesee, July 18.

Enjoys Red Time Stories

Dear Uncle Tom—I see the club has grown quite large as many members have sent in names of others who would like to become members. I get the paper almost every day and read the Red Time stories. I enjoy reading the letters too. I have not written since last month, so I thought I had better tell you I will close now, wishing all the members a happy vacation and Uncle Tom good luck.

CAMROSE, JULY 18. HALDOR OLSON.

Weather Very Hot

Dear Uncle Tom—I am now going to write to you again. I am visiting at my aunt's place. We were at a picnic on Thursday and we had a very good time. The weather is awfully warm down here. I am late this month about writing my letter. I wish Uncle Tom and all the members a good time.

DORIS WILLIAMS, Ardrossan, July 14.

Holidays Soon Over

Dear Uncle Tom—Holidays are soon over now. The holidays I was very busy trying to pass in Grade IV. I did pass too. We have lost our teacher now. She is going to be married and will leave for another one. I have been out picking berries. I was away two weeks.

BUKANTIA BENSON, Viking, July 21.

Takes Music Lessons

Dear Uncle Tom—I did not see any of my letters in print but the first one. I would like to see this one in print. I take music lessons. We have got our holidays now. Our teacher has gone away. Her name is Miss Dunphy.

ETHEL NORDSTROM, Martins, P. O., July 6.

Dear Uncle Tom—There was a picnic here on Wednesday, July 18. There was about ten or twelve hundred people present. There was all kinds of sports. Everybody had a good time. It was a lovely day for a picnic. We have not had any rain around here for over a week and it is getting awfully dry for the crops and for breaking. We are having our vacation now and a great time.

Argyle, July 20. BASIL SMITH.

Was at the Fair

Dear Uncle Tom—I did not write to you for a long time; but I was not at home so I could not write any sooner. We have a farm four miles from where we live and I have to watch the sheep there, so they don't get in the grain. I was up to the fair in Edmonton for two days, saw a good many different things. I like to ride on the merry-go-round the best of all, which I sure did a good many times. Sunday my brother and I and some more boys are going to go and trap coyotes. I suppose I'll do as my letter is getting pretty long. Could anyone send me the song school days. I wish to see the song school days.

CHRISTOPHER WEDDER, Port Saskatchewan, July 21.

ALADDIN CLUB

Edited by Uncle Tom for Boys and Girls

To Uncle Tom, Care the Bulletin, Edmonton.

Please enroll me as a member of your Aladdin Club, and also send me a bag of free of charge.

I am years of age. My birthday is on the day of

Globe-Wernicke

Select Bookcases

IN many homes, members of the house hold have individual libraries in their own rooms or apartments where they can store their most cherished volumes and enjoy them without fear of interruption and without interfering with the pleasure of others. The Globe-Wernicke Bookcase lends itself ideally to individual libraries, because its sectional construction adapts it equally well to large or small book collections. It grows with the library and its units can be rearranged quickly in any number of new and artistic combinations. Exact duplicates of sections are always obtainable.

Globe-Wernicke Bookcases are made in many styles and finishes to suit the color scheme of different interior designs.

Supplied in Golden Oak, Fumed Oak, Early English or Mahogany finishes.
